

# DSPACE

## Introduction to the new DSpace logo

DSpace has a new look! With the help of 99designs, DuraSpace and designers from around the world more than 100 logo designs were contributed to help come up with a new look for the most popular open source repository software in the world. The DSpace community was invited to vote and comment on the top designs in a recent poll. The bright green “D” with a stylized connector icon concept was designed by Yadhie Coy who resides in Central Java, Indonesia.

The aim of the new brand is to give DSpace an updated look and feel with a modernized logo as community work on the new DSpace 7 with an Angular user interface continues. The new logo will become part of a new DSpace web site in 2017 and will also be featured on promotional items.

The community is encouraged to download and use the new logo from this page. Here are some ideas:

## Web pages and electronic media

Add the new logo to:

- DSpace repository homepages
- Electronic reports about
- Form replies from your DSpace repository

## Printed materials

Add the new logo to printed materials featuring or promoting your DSpace repository:

- Brochures

- Palm cards
- Stickers
- t-shirts

## Large displays and posters

- Add the new logo to event displays or posters related to the use of DSpace at your institution
